OBJECTIVE

Over 10 years of experience in the areas of application programming, system design, development, deployment, execution, testing and Implementation of business applications. Expertise in developing software's while incorporating critical thinking, problem solving, and leadership skills. Designed and developed applications using C#, VB.Net, ASP.Net, MVC, .Net Core, Web API, MS SQL Server, MY SQL, Mongo DB, React JS, Redux, CSS, HTML, Java Script, VB Script, XML, jQuery, AJAX, WCF, ADO.Net, LINQ, and GitHub.

EXPERIENCE

Kroger, Cincinnati, OH   **Feb 2022 – Present**
Sr. React JS/.Net Developer.

- Involved in Development Life Cycle with Analysis, Design, Development, implementation, Integration, Testing, Debugging, Production and Maintenance.
- Developed **Dot NET Core APIs** based on requirements and specifications.
- Involved in coding and designing using C#, XML, ADO.NET, WCF, JavaScript, React JS, jQuery, HTML, and Cascading Style Sheets (CSS)
- Experience in developing Web API to create **REST FUL** Web services.
- Developed interactive and dynamic User Interfaces using HTML5, CSS3, JavaScript, jQuery, JSON, XML, AJAX.
- Developed User Interface by using the **React JS** for **SPA** development.
- Used React-Router to turn application into **Single Page Application**.
- Designed interactive web pages using HTML, CSS, **React JS**, Bootstrap and AJAX to provide excellent user experience.
- Deployed the Web Application to Microsoft **Azure.**
- Worked on **Azure Service Bus** for sending message across cross platform applications.
- Used React JS in development of the web application to bind the data/model that is being retrieved from a database through services provided in a controller to the view using scope.
- Developed **Entity Framework** Code-First approach with Repository-Pattern based backend and used RESTful and Web API as transaction and communication technology to the client-side.

Environments: C#.NET, .Net core3.1, SQL Server 2017, Web Services, Visual Studio 2019, Visual Studio Code, jQuery, React JS, HTML5, Entity Framework6.0, LINQ, XML, GitHub.

BKFS, Jacksonville, FL   **Sep 2019 – Dec 2021**
Sr. React JS/.Net Developer.

- Involved in design development, testing and deployment of KIOSK and web applications from scratch, using .Net Framework 4.5, C#, MVC, HTML5, CSS, JavaScript, Entity Framework.

EDUCATION

Bachelors in Electronics and communication engineering at JNTUH, 2013

Hyderabad

Andhra Pradesh

KEY SKILLS

- C#.NET
- .NET CORE
- MVC
- ASP.NET
- WEB API
- ENTITY FRAMEWORK, ADO.NET, DAPPER
- JAVASCRIPT, JQUERY
- CSS, BOOTSTRAP
- NODE JS
- REACT JS
- REDUX
- MS SQL, MONGO DB
- GIT, TFS, BITBUCKET
- CI/CD PIPELINE

- Developed the application using HTML5, CSS3, JavaScript, jQuery, and **React JS**.
- Utilized C#, ASP.NET, MVC, .Net frameworks, JavaScript, HTML, jQuery, SQL Server, and Microsoft Visual Studio 2015/2017, SQL Server 2016 for development.
- Worked on Visual Studio / .Net CORE Framework to implement Business Logic.
- Developed front end responsive web application features using Knockout.js, Bootstrap implementing JavaScript, jQuery, HTML, and CSS.
- Web APIs, Visual Studio 2015, Visual Studio 2017, SQL Server 2017, .Net, C#, JSON, SQL, Stored Procedures, SQL Server Management Studio.
- Developed and designed web application with the React JS and WEB API 2 as backed layer by using .NET Core.
- Used GIT and VSTS (Visual Studio Team Services) repositories to keep track of the assigned tasks and to check in and checkout solution files.
- Hosted application in **Azure** cloud environment.
- Used **Azure** components like Service Bus implements a communication system between mutually interacting software applications, Message Queues, Redis Cache to support Data Structures such as Strings, Hashes, Lists.
- Involved in developing application logic through writing high level, reusable components using React.
- Responsible for design, development, Unit testing and Code review.

Environments: .Net Framework 4.5, C#, MVC, ADO.Net, React JS, HTML5, CSS, JavaScript, MVC 4.5, ASP.Net MVC, Web API, SQL Server 2016, Visual Studio 2015, SQL Server 2016/2017, TFS, Git.

Caliber Home Loans, Dallas, TX   **Mar 2019 – Sep 2019**
React JS/ .Net / Web Developer.

- Involved in development process of new modules in agile methodology including Analysis, Design, Implementation, Testing and Maintenance
- Used fast paced Agile Methodology, involving in task completion, iteration passing through a full development cycle using N-Tire architecture.
- Designed, developed and enhanced the application in **.NET Framework 4.0.**
- Involved in designing the application architecture using Microsoft design patterns, C#, ASP.NET.MVC, JQUERY, C#. NET and Web User Controls using Test Driven Development (TDD).
- Worked with business analysts, project managers, project lead and other developer to help design, develop technical design, specs, and coding as part of SDLC.
- Used SCRUM methodology of Agile Software development and TDD in different modules.
- Used AJAX Library, CSS, JavaScript, and various web controls to present data to users in a much comfortable environment.
- Used Web API to create a RESTful Web Services in MVC.NET, which can send messages using XML and JSON.
- Involved in creating various **SQL Queries, Stored Procedures, Views, and Triggers.**
- Involved in development of data access, business and application layer using LINQ, C# and Asp.Net.
- Used ADO.NET objects such as Data Reader, SQL Command, and Data Table to read and write data.

Environments: VS 2014, C#, XAML, HTML5, MVC 4, CSS3, jQuery, Bootstrap JS, SQL Server 2008/2014, TFS (team foundation server), Multithreading, JSON, Windows Services, NuGet, MVVM, ADO.NET.

Experian, Hyderabad, India   **Nov 2013 – Feb 2019**
Jr .Net Developer.

- Implemented web based front end using **ASP.NET, jQuery, CSS, HTML** controls and business logic using C#.
- Created 4.0/5.0 custom controls, styles, animations, and themes based on requirements.
- Used SSIS packages to roll our data to Live Tables and to Reservation Processing Database

- Involved in full life cycle of the project from **Design, Development & Testing** in Agile Scrum Methodology
- I Conducted requirement meetings, design reviews with internal stakeholders and end-users to gather and transformed constructive feedback into great design solutions.
- Developed Components for Business Layer and Data Layer, implementation in MVC Architecture using **ASP.Net** on client side.
- Developed back-end databases using **C#** and the **Entity Framework.**
- Used **Entity Framework** Model as the Data Access Layer Code First and implemented the **CURD Create, Update, Retrieve and Delete operations.**
- Experience in working with version control tools like **Microsoft Visual Studio Team Services** (GIT) - Storyboard, Project Integration Build and Release, Code Review
- Implementation in a **multi-tier application** development environment
- Maintaining Solution in **GIT** for version controlling and bug tracking for Build and Release and pull request.

Environments: .NET Framework 4.5, C#.NET, ASP.NET, MVC 3.0, AJAX, HTML, CSS3, LINQ, web API'S, Web Forms, JavaScript, Agile (scrum), jQuery, ADO.NET, JSON, SQL SERVER 2012, Visual Studio 2012, IIS, Entity Framework.
